MOSQUITO NEWS

INDEX TO VOLUMES I, II, III, AND IV

COMPILED BY J. B. SCHMITT

The first two volumes of "Mosquito News" were issued with each of the four numbers of each volume separately paged. It is therefore necessary to indicate which number of a volume is referred to in citing a reference. This is shown by an Arabic number immediately after the volume number, in Roman, and separated from the page number by a comma.—J.B.S.

SUBJECT INDEX

Aëdes aegypti
in central Missouri, II-1, 17
in fish ponds in Norfolk, III, 67
culture; techniques, IV, 104
Aëdes cantans
in bomb craters, England, II-2, 13
Aëdes cataphylla
in northern Canada, III, 128
Aëdes dorsalis
and encephalitis in California, II-1, 15
in northern Canada, III, 129
Aëdes excrucians
in northern Canada, III, 129
Aëdes flavescens
in northern Canada, III, 129
Aëdes infirmatus (D. and K.)
in Maryland, 1-3, 15
Aëdes lateralis
and encephalitis, II-1, 15
Aëdes mitchellae
in New Jersey, II-4, 27
Aëdes nearcticus
in northern Canada, III, 128
Aëdes nigripes
in northern Canada, III, 129
Aëdes nigromaculis
and encephalitis, in California, II-1, 15
in Missouri, III, 106
Aëdes spencerii
in northern Canada, III, 129
Aëdes taeniorhynchus
in Florida, II-1, 8
Aëdes triseriatus
in Missouri, III, 106
Aëdes trivittatus
in Missouri, III, 106
Aëdes vexans
in Delaware, I-4, 7
in Minnesota, II-1, 7
flight range, III, 16
in ten years of New Jersey trapping records, III, 60
in Missouri, III, 106
in northern Canada, III, 129
Anopheles
at Fort Du Pont, III, 4
species sanitation, III, 48
Puerto Rican, and light traps, IV, 17
Anopheles atropos
in New Jersey, II-4, 27
Anopheles crucians
and CO_2 traps, II-1, 30
Anopheles culicifacies
in Ceylon, III, 51:55
Anopheles ludlowi
in the Philippines, III, 50
Anopheles maculatus
in Malaya, III, 50
Anopheles maculipennis
var. *occidentalis*, in Minnesota II-1, 14
var. *freeborni*, III, 49; 103
var. *labranchiae*, III, 50; 51
var. *atroparvus*, III, 51
in Missouri, III, 106
Anopheles minimus flavirostris
in Luzon, III, 50
Anopheles pseudopunctipennis
in Argentina, III, 54
Anopheles punctipennis
in Minnesota, II-1, 14
flight range, III, 16
in Missouri, III, 106
Anopheles punctulatus
var. *moluccensis, in*
New Britain, III, 49; 53
Anopheles quadrimaculatus Say.
in Delaware, I-3, 3; I-4, 7; II-1, 28
in Southern States, I-3, 9
not taken in N. J. traps (T.V.A.), I-4, 12
insectary breeding, T.V.A., I-4, 14
and water levels, II-1, 5
in Texas, II-1, 10
prevalence, T.V.A., II-1, 11
in Minnesota, II-1, 14
and carbon dioxide trapping, II-1, 28
and the light trap, II-2, 25
overwintering near Fort Du Pont, II-2, 37
and interpretation of trap data, II-3, 15
in Nassau County, III, 12
flight range, III, 16
transmitting *Plasmodium lophurae*, III, 38
species sanitation, III, 49
methods of measuring density of, III, 57
in ten years of
New Jersey trapping records, III, 60
in ornamental fish pools, III, 66

control with Paris green, III, 96
and application of larvicides, III, 103
in Missouri, III, 105
in Brookline, Massachusetts, III, 107
and Malaria, III, 132
in the Tennessee Valley, IV, 65
culture; techniques, IV, 104
Anopheles sacharori
in Italy, III, 50
Anopheles sundaicus
in Java, III, 51
Anopheles umbrosus
in Malaya, III, 50
Anopheles walkeri
in Minnesota, II-1, 14
and CO_2 traps, II-1, 30
in New Jersey, II-4, 27

Bermuda
1942 anti-mosquito campaign, III, 6
Bibliography
see Literature
Biography
Leland Ossian Howard, III, 1
Thomas Jefferson Headlee, III, 42
Joseph Augustin LePrince, III, 94
Dalferes Pennington Curry, III, 124
Louis L. Williams, Jr., IV, 4
William Broderick Herms, IV, 38
Birds
and mosquito control, II-3, 6
Blackflies
control with
New Jersey Larvicide, II-2, 33
Bomb Craters
and mosquito breeding, II-2, 13

Cairo
Mosquito Abatement District, III, 108
Carbon dioxide
and mosquito traps, II-1, 28
Connecticut Mosquito Law
Amended, I-2, 19
Cow lily (Nymphaea advens)
at Wheeler reservoir, I-4, 12
Culex apicalis
in Missouri, III, 106
Cuex coronator
and encephalitis, III, 59
Cuex pipiens
aand encephalitis, II-2, 12
flight range, III, 16
in experimental transmission of encephalitis, III, 59
in ten years of New Jersey trapping records, III, 60
in Missouri, III, 106
culture; techniques, IV, 104
Culex quinquefasciatus
in Missouri, III, 106
culture; techniques, IV,, 104
Culex restuans
in Missouri, III, 106
Culex salinarius
and CO_2 traps, II-1, 29
Culex tarsalis
and encephalitis (news item), I-4, 19
in Yakina Valley, II-1,17
and encephalitis, III, 59
in Missouri, III, 106
Culiseta inornatus
flight range, III, 16
in Missouri, III, 106

Delaware
mosquito control, 1942, III, 12
Directory
supplier's, III-1; IV, 25
of agencies engaged in mosquito work, III, 80
corrections to, III, 120
Ditching
with dynamite, III, 112
Dredge
Four-County Committee, I-3, 13
Du Page County
mosquito control, III, 136
Dynamite
ditching for mosquito control, III, 112

Eastern Association
activities, I-1, 8
meeting, November 19, 1941, I-4, 2
activities in member states, I-4, 23
1943 meeting, report of, III, 4
history, III, 45
distribution of "Mosquito News," III, 95
news of the Association, III, 126
Encephalitis
and *Culex tarsalis,* I-4, 19
in California, II-1, 15
in Yakima Valley, II-1, 17
experimental transmission of, III, 59
recent literature, IV, 91

Fish
and mosquitoes, II-3, 3
Fish pools
mosquito breeding in, III, 66

Gambusia affinis
a sport of, in Illinois, III, 68
Georgia Malaria Bulletin, the, II-1, 4
Great Lakes Naval Training Station
mosquito abatement operations, III, 108

Hammer
light portable gasoline, III, 21
Highland Park (Ill.)
Mosquito Abatement District, III, 136
Hydraulic Fills
elimination of surface cracks on, II-4, 25

Inspection trip
July 19, 1941, I-3, 4
August 28, 1941, I-4, 7
September 22-26, 1941 (T.V.A.), I-4, 9
June 19, 1942 (Norfolk), II-3, 31
November 6, 1942, II-4, 2
October 31, November 1, 1944, IV, 120

Larvicides
oils and larvicides, I-2, 28
S-V larvicide, II-2, 27
N. J. for blackfly control, II-2, 33
pyrethrum; protection of gatherings, II-4, 7
oil-emulsion, Bur. Ent. and P. Q., III, 14
as contact poisons, III, 96
crude oil as, III, 111
simple field and laboratory tests for, IV, 50
Legislation
and Pest Control, II-2, 31
Lists
of New Jersey mosquitoes, II-4, 27
of culicidae of Missouri, III, 105
of Virginia mosquitoes, IV, 48
Literature
mosquito control, II-2, 5; 43; -3, 34; -4, 30; III, 31; 69; 113; 146; IV, 19; 55; 94; 153

Malaria
in drug addicts, New York, I-4, 22
and water levels, Georgia, II-1, 5
on the Front Line, II-2, 2
Control, versus Mosquito Control, II-4, 21
control: non-drug aspects of, III, 109
disease and method of spread, III, 130
methods of control, III, 132
control in Maryland, III, 136
control from a sanitary engineering point of view, III, 144
control in the Tennessee Valley, IV, 65
Mansonia perturbans
in Delaware, I-3, 3; 17; -4, 7
Megarhinus septentrionalis
in New Jersey II-4, 27
in Missouri, III, 105
Missouri
occurrence of *Aedes aegypti*, II-1, 17; II, 104
Culicidae of, III, 105
Mole plow
in Middlesex County, N. J., III, 143
Mosquito control
in Delaware, I-1, 10; -2, 16; II-1, 26
and National Defense, I-2, 21; -3, 7
in Hudson Co. (dredging operations), I-2, 24
in Impounded Waters, I-2, 28
Developments in: Middlesex Co. Spray Unit, I-3, 10
Union Co. Spray Unit, I-3, 12
breeding in Farrington Lake, I-4, 25
Morris Co. Spray Unit, I-4, 25
in non-member states, II-1, 3
in member states, II-1, 18
in Second Corps Area, II-1, 18
in First Corps Area, II-1, 23
in Suffolk County, II-1, 27; -2, 14
World-wide, II-2, 5
in California, II-2, 12; -4, 8
in Atlantic County, II-2, 19
in Monmouth County, II-2, 21
in Norfolk, Virginia, II-2, 23; IV, 79
and Fish, II-3, 3
and marsh birds, II-3, 6
and the War Effort, II-3, 12
any oyster culture, II-4, 15
on hydraulic fills, II-4, 25
the human side of, III, 43
by naturalistic methods, III, 48
use of explosives, III, 61
by *Gambusia affinis*, sport of, III, 68
larvicides (contact poisons), III, 96
crude oil for, III, 111
ditching with dynamite for, III, 112
underground drainage, III, 137
pipe line construction, IV, 14
in Delaware Co., Penna., IV, 80
Mosquito culture
techniques, IV, 103
Mosquito work
of the New Jersey Agric. Expt. Sta., I-1, 2
in non-member states, I-1, 4
in member states, I-3, 6; II-3, 41; IV, 10
Mosquitoes
southern mosquitoes in Maryland, I-3, 14
Muskeg,
four days in the, III, 127

N. J. Mosquito Extermination Assn.
30th Annual Meeting III, 56
Nymphaea advens (cow lily)
at Wheeler reservoir, I-D, 12

Oils
emulsion, Bur. of Ent. and P. Q., III, 14
as contact poisons, III, 96
crude oil, III, 111
Old salt marsh ditches
loss of efficiency of, III, 142
Oyster culture
effect of mosquito ditching . . ., II-4, 15

Paradichlorobenzene
in light traps, II-4, 18
Paris green
as a larvicide, III, 96
Peterson, John P.
A tribute to, IV, 128
Polygonum persicaria (smartweed)
at Wheeler reservoir, I-4, 13
President's Message (L. A. Stearns), I-3, 2
Productile abatement, II-2, 18
Psorophora ciliata
in Missouri, III, 105
Psorophora columbiae
in Florida, II-1, 8
in Missouri, III, 106
Psoraphora cyanescens
in Missouri, III, 105
Psorophora discrucians
in Missouri, III, 105
Psorophora howardii
in Maryland, I-3, 15
Psorophora sayi
in Missouri, III, 105
Psorophora varipes
in Maryland, I-3, 15
